Dine for #71: Send logs out no later than 3/9

A few weeks ago, I rxd a bunch of *The Pirate Radio Directory* by George Zeller. Most everybody probably knows about it, so I won't describe it. The cost to ACE and Pirate Pages members is \$9.50 postage paid--that's cheaper than I've seen anywhere. R.USA "Uncle Scam" t-shirts are almost gone, so another design is now in. This 1 is black on orange w/ the new "Radio Freedom" logo. In part cuz of suggestions from Paul Spurlock, I shelled out the extra \$ and they're 100% cotton. This shirt and all of the others are available for \$10 postage paid. Make any checks or money orders to Andrew Yoder, and of course, the proceeds help support these stations...

Stn mx: Remember to vote for your favorite and least favorite stns of '91. It's the '92 Pirate Poll! Send your votes to John Arthur..Hope R & R.USA've both been heard near 21500 kHz recently, so start tuning there...

Bootleggers in the Aviation bands: A ham that I work with has been telling me about bootleggers on 123.475 MHz in Maryland. He sez that it's a "split" aviation frequency and that people are regularly heard relaying legal AM/FM stns & even singing! They believe that these signals are coming from the air, not ground. Once again, the FCC seems to be spending its resources on busting harmless pirates, not on those who actually cause harm...If ya have a scanner in MD, try listening...

Dline for #72: Send logs out no later than 3/23

The past few weeks've been a mess w/QSOs, stns making up many new names, etc. I usually dont include this stuff anyway, so I tried to pull out most of it. Walter Cargill in Scotland sent an extensive 2-pg log of the stns he hrd on 3/2, but they aren't included. If you wud like to QSL him for these rpts, I'll be glad to photocopy it for anyl, just write...Here's a comment from Phil Burbules abt 3/1-2: "Most of the stns who bdcst on 7415 were smart enuf to keep away from that mess. All of the QSOs just bring attention to 7415 & hurts the people who only wanna bdcst, not have all-nite QSOs." From Niel Wolfish "I listened to most of what had to be the most pointless "QSO/bdcst" I have ever experienced last nite..." From Ira Richolson (from a QSO log) "Hard to tell how much of this was 'real stns' & how much fakers...deteriorated into name calling 'tween var. stns generally w/VoNight." From George Zeller "This VoNight guy is the most irresponsible pirate I've ever hrd in more than a decade of pirate DXing. His long daily marathons & offensive pgms are bad enuf. Also, for 2 wks in a row he's generated malicious QRM to 7240 ANARC net in the ham band using phony calls. On 3/8, he used Fred Osterman's call. Obviously, this boy has gone too far. I've warned him via phone & in a rpt abt these things & others've done the same, but to no effect. Rcvd call de Bob Brown, KW3F, who is unhappy abt the QRM. I dont expect that VoNight can remain unbusted for long." From Terry Provance (from a QSO log) "...VoNight masturbated over the air to everyone's disgust. A total waste of airspace." From Steve Foehner "I started to get tired of all this after a while, but it was interesting listening."

Stn nx: Remember to vote for your favorite and least favorite stns of '91. It's the '92 Pirate Poll! Send your votes to John Arthur. WCYC Sez they have a new 41m sloper that's doing MUCH better. Yup, they were hrd by W.Cargill in Scotland w/gd sigs!. Also Walter sez that his sigs from WSKY & ECBD were exceptional! 0700-0800 is a nice time frame for hitting Europe on 41m..

Strn nx: CSIC sez that their 2nd anniversary special is available on cassette for \$3 postage paid via BRS add. Nice price!...P.R.Boston is a new one & their add is PO Box 146, Stoneham, MA 02180. The new Action R add is PO box 493, Boystown, NE 68010...

By now you've probably hrd all the nasty rumors abt me & the FCC "bust." If ya missed it, here's a recap: an agent from Laurel, MD FCC came to my parents' house while I was visiting there a few months ago. He accused me of unlicensed bdcsting & I denied him entry (no search warrant) and he came back the next morning (same thing happened). About 1 mo. ago, I rxd an NAL for \$17,500. Because they have purely circumstantial evidence, I am unwilling to pay the fine. If you want more info, I plan to print the entire NAL & my response in my column in the next ACE. If you don't get the ACE, I'll send you copies in return for a few stamps. I'm not thrilled about everything, but I do plan to continue w/PiPa, ACE, maildropping, writing, etc. Thanx to everyl for the calls & nice ltrs, incl (in no particular order) J.Brewer, D.Troglin, CSIC, WLR, S.Foehner, T.Straka, J.Hollowell, A.Michaels, P.Burbules, J.Arthur, Mr. Lee, Signals, RNI, G.Zeller, B.Taylor, J.Barnard, & D.Bishop.

Testing to Europe? Send you skeds to me (I write for *FRS Goes DX* & trade zines w/*Free DX*) & Eric Suter has a US column in *Pirate Chat*. Tnx for the PC copy, Eric!

CSIC is looking for operating instructions & schematic for a Knight tube tester. They also want audio mods for a Heath TX-1 Apache xmtr. BRS add.

DON'T GO too far above 7415! Paul Schmitt sent in a printout of the Army MARS Communication Traffic Network on 7419. It cud be vry dangerous to interfere w/this!

Interested in old-time r? BRS Productions, PO Box 2645, Livonia, MI 48151 has loads of old r. pgms for \$5 per cassette.

BRS mx: I rxed a ltr da FCC ordering me to pay the "fine." Considering that I have no power of collection & the case hasn't gone to court, their demand is unlawful. So, I've got my work cut out for me... Check out the article abt me in the 7/8/92 issue of R.World for a good case of defamation of character. These guys must not've taken Broadcast Law in college! Thanx to everyl for all of the ltrs & support! The comments & advice REALLY help me. Rem. to support yer favorite pirates & friends in the scene ("unity & friendship," eh?). The FCC'll keep stomping on everyl's rights until people finally say "STOP!"

Yup, I've still got shirts for sale @ \$10 apiece: R.USA, Hope R., KNBS, & I even have a few R.Clandestine ones left. Some of the sizes are sold out. All R. Clandestine medium shirts are \$7 apiece cuz pirate SWLs are too fat & dumpy for anything less than large!

Sorry to Yolanda Lewis whos logs arrived in only 8 days after the postmark...

Abt 2/3 of PiPa subscriptions run out 'tween now & issue #85. Please rem to get your \$ out so I don't hafta keep bugging ya. Also, if yer a regular & have a few \$, go for 24 issues instead of 12. I'm still not organized, but I'm trying to improve everything.

Europirate logs: In case you've been wondering, I've been cutting out logs of R.Dublin & R.Fax cuz they're 24-hr stns & are unlicensed, but not really illegal. The East Coast DXers cud log these stns every nite & that'd get pretty boring after a while...

Stn nx: Action R. has called it quits! I got a call last nite de A.J. Michaels, letting me know of his plans. He said that his Viking II blew a Xformer (costly). After many xmtr probs, "getting jammed by 13-year-old kids," & the new fines, he decided to end the stn. But more projects are in store for the future, poss. a legally relayed pgm...WVOL is testing on 21468 kHz area on sat afternoons, so check for'em!...

Dline for #82: Send logs out no later than 8/14

Official PiPa Oktoberfest: I was really bummed to hear abt the demise of JTA's GTGs in the latest ACE. So, we will hopefully have a gathering at Mountain Springs Camping Resort in Shartlesville, PA on 10/31 through 11/1. Shartlesville is near Reading, PA & is about 1 hour from Philly & 2-3 hours from Baltimore, DC, & Newark/New York City.

This DXpedition/GTG is entirely up to you. You show up (there should be plenty of sites open) and you bring your food, etc. Also, you are responsible if you want to broadcast from the campground (I won't stop you, but I'm not gonna even stand near yer site if you try it!). I plan to set up some longwire antennas (500 to 1000 feet long) and contact some European pirates to test over this weekend). Also, I'm gonna try to get in contact with NASWA & see if some of those people would want to show up & join in.

I reserved 1 site & asked the manager abt stringing antennas. He said it was OK & that I cud get a site in the woods. So, we will hopefully get some LONG antennas up! The campground phone # is (215) 488-6859. If you wanna reserve a site in advance, mention my name & let'em know that you'll be listening to shortwave so that you don't end up with a site that you can't string antennas from.

I plan to show up on Saturday morning & leave sometime on Sunday. If a few people (or more) are interested in coming early, I'll got out on Friday night instead & stay thru Sunday. Please let me know if yer interested in coming!! After all, you will spend most of yer Halloween DXing, won't you!! My phone # is (717) 263-6109 (ncc). OH YEAH, NO ALCOHOL IS ALLOWED AT THE CAMPGROUND!

Yup, I've still got shirts for sale @ \$10 apiece: R.USA, Hope R., KNBS, & I even have a few R.Clandestine ones left. Some of the size are sold out. All R. Clandestine medium shirts are \$7 apiece cuz pirate SWLs are too fat & dumpy for anything less than large!

R.Animal is alive & well! & he ahs some stuff for sale: 100mW part 15 xmtrs w/VFO & fine freq adjust, 88-108 MHz, 12-V, \$100. Also, a 60-min compilation tape of only mx abt dogs "Rapid Paw Movement" Cost is \$5 & proceeds support free r. PO Box 25302, Pittsburgh, PA 15242

Wanted: an antenna tuner capable of handling 1 kW. Reasonable price. CSIC via BRS add.

Halloween DXpedition: I have no clue how many people are coming, but it was publicized in *Free-DX*, *FRS-Goes-DX*, *ACE*, *NASWA*, *Fine Tuning*, etc. Either way, we'll have 3 retubed, realigned R-390As, 1 or 2 R-392s, a few other rigs, tape recorders, solid tents, heaters, and lotsa recording tape & wire. Also, 12 Europirates have now sked for us & I know of about 10 NA stns that plan to be on. I'm really excited, in spite of the weather that's s'posed to be in the 10s to 30s! If this works out, I plan to write up how it went in the next *ACE*...

Hello R policy: logs of "Hello R" have been coming in for years. Usually it's someone who repeats the "ID" to jam another stn. If you listen to the ham bands, you'll hear many people saying "hello r" to tune up xmtrs, etc. Thus, it is my opinion that this isn't a stn or even 1 person, but is caused by different hams who don't like what they hear & jam w/the first phrase that comes to mind. Thus, I skip these "logs."

Yup, I've still got shirts for sale @ \$10 apiece: R.USA, Hope R., KNBS, & I even have a few R.Clandestine ones left. Some of the sizes are sold out. All R. Clandestine medium shirts are \$7 apiece cuz pirate SWLs are too fat & dumpy for anything less than large!

R.Animal is alive & well! & he ahs some stuff for sale: 100mW part 15 xmtrs w/VFO & fine freq adjust, 88-108 MHz, 12-V, \$100. Also, a 60-min compilation tape of only mx abt dogs "Rapid Paw Movement" Cost is \$5 & proceeds support free r. PO Box 25302, Pittsburgh, PA 15242

Halloween DXpedition: whew...not much time to tlk abt it cuz I'm trying to get this typed in a hurry. But...it was a gd time. It rained fri nite, my tent never made it & a Coleman stove died, but we planned on some probs. We had a 1000+ ft longwire pointed @40 degrees, a 4lm dipole & a 200 ft mini-longwire. Only 6 people made it, but that was plenty for the tent on sat nite--all huddled around 3 R-390As, pulling out details! Really exciting! No, I wasn't even within a mile of an xmtr--we had state & local cops stop @our campsite! Unfortunately, the condx died on sat nite & not many Euros were audible here. We plan to do it all again next Halloween, so look out! (a more detailed account of the DXpedition'll be in The ACE).

I'm very sorry, but I had to cut the details o/t last few CSIC relay logs--just no time to finish this PiPa otherwise...apologies to CSIC & those rpters affected..

WORDS ARE mighty

SNALLYGASTER

Piratewear, which produced several pirate radio t-shirts and has made several pirate-radio books available for public enjoyment, has now evolved into a new company, Snallygaster Publishing.

The first offering from Snallygaster in 1993 will be *The 1993 Worldwide Pirate Radio Logbook* by Andrew Yoder. The book will list the time, date, frequency, and station name for every shortwave pirate broadcast in North America, Europe, and Oceania. In addition, the lists will be sorted

chronologically, by frequency, and by station. A complete list of station addresses an overview of the year in Europe and North America will be presented with graphs and future trends. This book is tentatively estimated at \$10, 6" X 9", and 160 pages. *The 1993 Worldwide Pirate Radio Logbook* is scheduled for publication in March 1993.

Later in 1993, two more pirate-related books are scheduled for publication: *The North American Pirate Radio Encyclopedia (1978-1991)* by The Snallygaster Staff, which will list the time, date, frequency, and station name for every shortwave pirate broadcast in North America from 1978 to 1991. Like the 1993 Logbook, *North American Pirate Radio Encyclopedia (1978-1991)* will also be sorted chronologically, by frequency, and by station. An overview of this period will open the book, featuring prominent stations and showing how shortwave pirate radio developed from a few scattered incidents into a thriving scene.

The last book scheduled for 1993 is *Hands-On Pirate Radio* by Andrew Yoder. This book will show the beginner how a pirate builds a studio, finds and operates a transmitter, sets-up antennas, produces programs, and avoids the FCC. This book shows many photographs of various real pirate radio operations and actual case paperwork between the FCC and the author, who was accused of operating a pirate station in 1992. A must for anyone who wants to know the behind-the-scenes information about pirate radio.

Howdy folks! Here's the latest P.Pa & I'm way late on getting this to the printer, so I've gotta make this quick! Sorry about the small type & leftover space, but I don't have any time to redo this P.Pa. I thought it would fit all on 1 page.

The Snallygaster ad/project is brand new. The *Pirate Radio Logbook (1993)* is complementary to George Zeller's book & is nothing like it! No money from these books will go toward Pirate Stations! But, it might help pay some of my lawyer fees. ~ Well, I gotta run or I won't make it... thanks for all the nice letters & I'm sorry I can't write more personal letters. I hope to see ya'll at the SWC Winterfest in February, tho. Happy Holidays! Chuter
